SIMPLICITY.

You find the legal part of buying a house simple when we do it for you because 1200 trained people are all working for you. Real estate law is no simpler than it used to be. It is more complex. There are the same danders and pitfalls, only more of them, but our 'mproved indexes, labor saving devices and our army of people make short and sure work of avoiding them. The ease and comfort of our protection do not make it any less important to secure them. Bad titles cost just as much money to-day as they ever did. The only question is who pays for them-you if uninsured, or we if we insure you.

BROOKLYN HIT HARD. Republicans Made Great Inroads Into

Democratic Strength. The election in Brooklyn furnished a most sweeping defeat for the long trium-

phant Democracy of Kings county. It was only in the Congress alignment that the Democrats withstood the slump, Lindsay and Fitzgerald being reelected in the Second and Seventh districts, both unassailable Democratic strongholds, by greatly reduced pluralities, while the four other districts were swept by the Republicans by a vastly increased

In the next Senate the Democrats will have only three representatives from Kings county instead of five, the Republicans capturing the Eighth and Ninth districts. The defeat of Senator Hasenflug in the Ninth by Kissel, the Republican candidate, by over 1,000 plurality, was one of the big surprises of the election. Hasenflug, who was supposed to be firmly intrenched, has been one of Senator McCarren's most steadfast supporters all through the factional strife, and his defeat in a strong Democratic district is due, as most of the active political workers there knew, to the secret hostility of the anti-McCarrenites in the Nineteenth, Twentieth and Twenty-

first districts. In the Assembly confests the Demoorats also lost ground. In 1907 they elected only ten of the twenty-three Assemblymen, while this year they only elected nine, one of whom, Gluck, in the Twenty-first district, scratched in by plurality of 20. Weinstein, the Repubplurality of 20. Weinstein, the Reican candidate, is to make a contest

Senator McCarren was early on hand at Democratic headquarters yesterday morning, but there were only a few of the party workers around to meet him. He showed no evidence of depression, and the only statement he would make to the reporters was: "I am very sorry at the result: that is all I can say. The vote ult; that is all I can say. in Kings county was no more surpris-ing than in any other part of the State." Borough President Bird S, Coler said that local conditions had alienated Demo- campaign

crats from party allegiance.
Former Sheriff William E. Melody,
who has been prominent in the anti-McCarren faction, said: "McCarren has scored five successive defeats in five years, and if he continues as leader this borough will become a Republican stronghold."

Former Sheriff M. J. Flaherty said that

a Democratic victory under the present leadership was impossible. vote for Supreme Court Justice

the Second district was interesting, particularly to the Republicans. It showed that Abel E. Blackmar, who ran against S. S. Whitehouse, the Democrat, led everywhere. In Kings county Black-mar led by 17,562 and added 22,455 to that in the other four counties of the district

DEMOCRATS ANGRY AT THE CITY VOTE FOR BRYAN.

in this city said yesterday: "If Murphy remains the leader of Tammany Hall until next year we will that R. Fulton Cutting, the president of the Citizens Union, has already begun negotiations with the Republicans with will mean the election of a fusion Mayor. Murphy has shown that he cannot deliver the Tammany vote, and if he is allowed to run next year's campaign he will fail as miserably as he has this year. Murphy has not the confidence or the friendship of most of the Tammany district leaders

"He has quarrelled with most of the big men in the organization. Even the Sullihim and have told him that if he attempts to oppose William B. Ellison, their candidate for Mayor, next year, they will make an open fight against him in the city convention. The trouble with Murphy is his organization, and the result of that idea was shown in yesterday s election.

"The leaders for the most part were dissatisfied with the amount of money was that no attempt was made to get out the vote. From what I know this parsimonious policy on the part of Murphy Murphy's part. If he had tried he could have collected all the money needed to get out the normal vote in all the election districts of the city."

So strong is the feeling against Mr. Murphy that talk was heard yesterday of a movement to oust him from the leadership. At a gathering of some Tammany men at one of the clubs uptown the opinion was expressed without reservation that there was something radically wrong with the organization of Tammany Hall and that the time had come to make a change in the leadership, particularly in view of the fact that a Mayor is to be elected next year.

The opinion was also expressed that if a Democratic Mayor is to be elected next year peace will have to be made between the Democratic machines of Brooklyn and Kings.

Mr. Murphy was not at his headquarters yesterday

The committee will hear those who appear before them who are able to give that he thinks he is more powerful than information on either side of the tariff question. That was the beginning of a running fire of comment on the returns which the President continued almost without intermission during the working hours of the day. He went to the office at 9 o'clock and after reading the newspapers prepared the following statement:

This Administration has meant a steady effort and progress which should never be allowed to deviate into an unwise radicalism on the one hand, nor into an unwise conservatism on the other. The nomination of Mr. Taft was a triumph over reactionary conservatism and his election was a triumph over unwise and

improper radicalism."
That was the only formal thing that happened at the White House to-day. Shortly before noon the President talked with a group of newspaper correspon dents, saiuting them with this remark, which was accompanied by a broad

The President transacted no great amount of executive business to-day, but spent several hours in reading the newspapers and telegrams of congratu-lation and in talking with friends. The President has received the following telegrams of congratulation:

CHICAGO, NOV. 3. The President: Our brotherhood rejoices with you in Taft's election, and we know he will be President for all the people and will give organized labor a square deal.

ELMIRA, N. Y., Nov. 4, 1908. Theodore Roosevelt:

GOMPERS ISN'T CAST DOWN He Says the Moral Influence of the Campaign is With the Cause of Labor.

WASHINGTON, Nov. 4 .- For the part taken by Samuel Gompers in attempting to "deliver" the vote of organized labor for a political candidate in the late campaign it is believed in union labor circles here that an attempt will be made at the

the cause of justice and human freedom. This is not the first time in the struggles of the masses that entrenched wealth, privilege and power gained a material even though a temporary victory. The moral influence of the campaign is with the cause of the workers. The part labor took compelled the discussion to be devoted almost exclusively to the labor question, labor movement and the principles of right, justice and humanity upon which their philosophy and demands are based. Even though disappointed with the immediate result there is no cause for and there will not be any loss of faith and confidence in the justice of labor's demands and their successful achievement. Action, consistent, inthe cause of justice and human freedom. achievement Action, consistent, in-sistent and persistent, will achieve for the toilers the triumphs of the cause of labor and the cause of human justice. Though temporarily defeated labor is not conquered. The future is ours."
